

Company Profile

G &M Stor-More has been servicing the self-storage industry since 1997 and specialises in Self Storage Construction across Sydney and regional New South Wales. We are a member of the Self Storage Association of Australasia as well as the Master Builders Association, and we pride ourselves on our outstanding reputation for quality work.

We focus on:

- Listening, to gain an understanding of your individual needs and then we provide extraordinary services tailored to those specific needs.
- Combining internal expertise with external resources to design and deliver the best possible solutions in order to maximise the potential for your project. We are dedicated in each step of the building process.
- Striving to build customer trust and mutual beneficial relationships which earn repeat and referral business.

Our range of services include:

- CADesign & Engineering
- Storage Unit Partitioning Systems
- Mezzanine Floor Systems
- Stackable storage lockers
- Relocatable storage units
- Installation by our fully trained team
- Pallet racking and shelving
- Full Project Management Service

OUR goal is to help YOU create a successful self storage business

We are located in a newly-refurbished factory unit in Penrith with modern offices and a showroom for customer's convenience. Call us to discuss your self-storage construction needs.

We'll help you to store MORE!
